

STR1500 Semi-Powered Pallet Truck

A semi-powered electric pallet trucks make light work of pallet handling. The load is raised manually as with a conventional hand pallet truck while a 24-volt motor then drives the truck.

- Simple and compact design with low weight facilitates handling in cramped spaces, in lifts or on sensitive floors.
- Fully floating outrigger wheels give increased stability.
- Price includes battery and external battery charger.
- Brakes are automatically applied when speed control is released or in the event of an emergency.
- Polyurethane wheels are used throughout for a smooth, quiet ride.
- The tiller head houses lift & lower lever, thumb-operated direction & speed controls and key switch. A battery gauge is fitted to the front bulkhead.

Model		STR1500/540	STR1500/680
Capacity To Full Height	Kg	1500	1500
At Load Centre	mm	600	
Wheels		Polyurethane On Metal Centres	
Closed Fork Height	mm	85	
Raised Fork Height	mm	202	
Fork Length	mm	1150	
Fork Width (W)	mm	520	680
Fork Spacing (W1)	mm	190	350
Overall Length	mm	1820	
Overall Width (WA)	mm	730	730
Turning Radius	mm	1570	
Drive Speed Laden / Unladen	Km/h	5.0 / 6.5	
Maximum Gradient Laden / Unladen	%	4 / 6	
Battery	V / Ah	24V/80Ah	
Charger	V / A	24V / 20A	
Brake		Electromagnetic	
Truck Weight (without battery)	Kg	215	225
